- SWS405** 10"
- SWS406** 14"
- SWS407** 18"
- SWS408** 22"

The "Long Handle" is the new professional stainless steel squeegee with a longer handle. The blade channels come in the following sizes: 25 cm (10"), 35 cm (14"), 45 cm (18") and 55 cm (22") with open locking points. The channel locking points are different in this model and its design is new. So these channels cannot be used on any other stainless steel squeegee made by Pulex. The "Long Handle" model is a stainless version of the classic professional squeegee. But it has something of different: the longer handle and the channels.

SWS425 PULEX STAINLESS STEEL WINDOW SQUEEGEE

The PULEX stainless steel window squeegee is highly appreciated by professional window cleaners. It can be disassembled into three main components: rubber blade, supporting channel and handle with a securing spring. The channel, always perfectly straight even in the larger sizes, is available in sizes 15 cm (10") to 55 cm (22"). The rubber blade (standard or soft version) is tested optically and electronically.

ALUMINUM WINDOW SQUEEGEES

PULEX ALUMAX SQUEEGEE

AWS400 24" AWS401 28" AWS402 32" AWS403 36"

The new "Alumax" is an extra-long squeegee. It has an extruded aluminum channel for the rubber blade and a professional swivel handle. This special new squeegee is the result of the professional window cleaner's need to save time when cleaning large panes of glass. It covers a large surface area evenly and effectively. In practice, the cleaning time is slashed to one third. So Alumax cuts times to a minimum and increases productivity.

Although this squeegee is wider than anything thought possible, it is quick and easy to use and give a perfect finish. It is amazing to be able to clean a strip nearly 80 cm (32") wide in one go!

AWS405 PULEX ALUMINUM SQUEEGEE

The latest edition Pulex window squeegee is a lightweight multi-purpose squeegee made entirely of aluminum (except the spring in stainless steel). Aluminum squeegees are a must for window cleaners demanding ultra-light tools as they claim the S-shaped cleaning movement is made much easier. The new grip is made entirely of corrosion-resistant, high impact aircraft-grade aluminum. The aluminum channel and rubber blade are the same as for the plastic squeegee.

WWS411 Aquaduo Water-Fed

A REVOLUTIONARY NEW SQUEEGEE FEATURING AN INTEGRATED WATER PUMP FACILITY OPERATED WITH ONE HAND. A plastic all-in-one tool with a rubber handle-reservoir and manual pump. A screw pawl allows easy assembly and disassembly of the aluminum channel that holds the rubber blade. The Aquaduo squeegee is reinforced with special ribbing to maintain perfect alignment when placed on a pane of glass.

Performance is guaranteed by the quality of the 30 cm (12”) interchangeable rubber blade and microfibre bonnet washer. Tool dimensions: length 29 cm (11.5”), width 30 cm (12”), thickness 9 cm (3.15”); total length of the handle extension 76 cm (30”) (in two parts with adapter). The Aquaduo squeegee is full contained (with the extension pole in two parts and adapter) in its compact cardboard colored box.

WWS412 PULEX WINDOW WASHER

The PULEX window washer stands out due to the exceptional resistance of its acrylic microfibers.

These fibers maintain their features even after months of heavy duty work. It comes in 4 sizes ranging from 25 cm (10”) to 55 cm (22”) and the support (T-bar) is made of plastic, aluminum and plastic, steel and aluminum, and also in the swivel version.

PULEX Microfibre Sleeve

WWA413 10" **WWA414** 14" **WWA415** 18" **WWA416** 22"

Having lengthy experience in window cleaning, Pulex has just launched a new microfibre sleeve for cleaning windows. The microfibre fabric is white and blue colours and created specifically for the purpose. Pulex's aim in developing this microfibre sleeve is clearly to clean windows with a little effort as possible using a tiny amount of chemical product or even none at all. The fabric is made from a two-component polyester yarn, in which the coarse filaments have a strong cleaning action.
