SEA921 PELADOW CALCIUM CHLORIDE

Manufactured by Dow Chemical from natural brine wells. Sold in pellet form, this item gives the best performance for ice and snow removal. Although higher priced, it is very effective and should be used sparingly. Used correctly, it does not harm concrete cured at least 1 year or vegetation. Effectively works to -25 degrees Fahrenheit.

SEA922 POLAR ICE MELT BLUE CALCIUM BLEND

Melts at lower temperatures. Safer for the environment. Contains heat-generating ice control crystals that ensure excellent product performance at lower temperatures. Qik Joe Polar Express will outperform others in its class.

A special time release formula -s activates quickly. In addition, the various components melt at different speeds, allowing melting to occur over an extended period of time

Works effectively in temperatures down to -15 degrees F

An affordable way to prevent ice formation - To keep walkways clear in the worst of storms, Qik Joe Polar Express should be spread prior to snowfall to make shoveling easier.
